### Skills

#### HTML and CSS

Semantic HTML and SCSS

#### JavaScript

DOM, Stimulus and AJAX

#### Ruby

Ruby On Rails

#### SQL

PostgreSQL

### Soft Skills

Communication

Team Work

Attention to Detail

Working under Pressure

### Profile

I recently moved to the Netherlands from the U.S. and since then I have learned some dutch and found an interest in web development. I'm passionate about technology and love to learn and challenge myself.

### Courses

#### Full Stack Web Development, Le Wagon

07/2022 – 09/2022

Amsterdam, Netherlands

Intensive 9-week Bootcamp where we worked on projects and challenges each day. We covered OOP, relational databases, front-end development, and project workflow building a UI on Figma and collaborating as a team on Github.

### Education

#### Computer Science, Lewis-Clark College 2015 – 2017 | United States

Covered introductory topics in software engineering and mathematics.

### Projects

#### Home Mixed, *The best bar is yours!*

An application that suggests cocktails you can make based on ingredients you have at home.

Built using Ruby on Rails, HTML, CSS, JavaScript, Stimulus, and PostgreSQL.

#### Vanish, *Destination: wherever*

An Airbnb clone we built using rails and instead of apartments and houses we are renting vans.

Built using Ruby on Rails, HTML, and CSS.
